

## **The Southern African photo competition results**

The Geoff's Trains were international sales agents for the successful Stars of Sandstone Festival in South Africa in April 2019. As part of our involvement we organised a photographic competition that was available to all participants who had booked any part of the 2019 Africa season. There were seven categories and the winning entries were chosen by the three South African photographers who assisted Geoff's Trains during the tour.

The winning images in each category are feature below. Each winning photographer will receive a copy of a book of photographs of the tour that will feature their pictures alongside those of the Geoff's Trains team. Other commitments have slowed production of the book, but it should be available soon and will be available through Blurb.
